

Protecting CNI Scotland

The importance of cyber-secure solutions in critical national infrastructure

Dakota Eurocentral, Motherwell
19th November 2025, 9.30 - 16.00

You are invited to join us at the *Protecting CNI Scotland* event, which is aimed at Systems Integrators, Consultants and End Users in the CNI sector.

We'll be providing insights from multiple perspectives into the importance of cyber-secure solutions in critical national infrastructure environments including Power, Gas, Water and Nuclear.

We have a fantastic line-up of presenters and panel discussions from specialists in cyber security, to end users in the CNI space, looking to share their 'real world' experiences.

Key agenda items include:

- Keynote from the 'award winning' Mike Gillespie FCIS MSyI CIRM of Advent IM, specialist in Cyber Security and Governance
- An end user in the nuclear space sharing their experience of risk mitigation and protecting systems against insider threats
- Panel discussion led by Malcolm Warr OBE, comprising of sector leads across the CNI space.

barox Kommunikation, Hirsch UK, Nedap Security, ISM Ltd, Commend, Overview and Lochrin Bain look forward to welcoming you at the event.

Lunch will be provided for all attendees and the day will finish with post-event drinks.

Due to limited places available, regrettably, this event is not currently open to other manufacturers or suppliers.
